

CAVEA

GLASS SYSTEM

CAVEA is a high-performance glass system designed specifically for wine cellars, providing full-height visibility and superior protection.

Built for both aesthetics and function, it delivers the thermal insulation, UV and IR filtering, and airtight sealing needed to maintain ideal aging conditions while showcasing your collection.

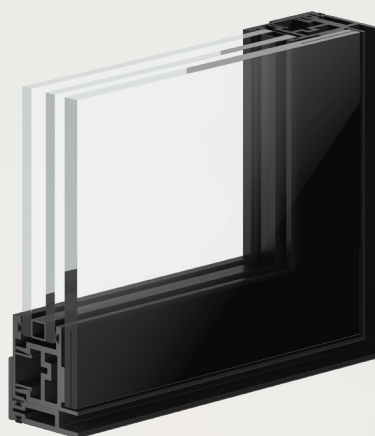

CAVEA A45

A cost-effective solution that offers performance with a 45 mm matte black frame for a sleek, modern look.

CAVEA ONE

Premium triple-pane construction for maximum insulation, with black silkscreened aluminum framing for a seamless, luxurious finish.
